

GOVERNMENT OF HARYANA

ANIMAL HUSBANDRY & DAIRYING DEPARTMENT

Integrated Sample Survey Report

for

Estimation of Major Livestock Products
Milk, Eggs, Wool & Meat for the year
2014-15

Issued by

STATISTICAL BRANCH

Animal Husbandry & Dairying, Haryana, Panchkula

Preface

The main aim of Animal Husbandry & Dairying Department is to increase the average yielding capacity of livestock and poultry such as milk, eggs, wool and meat by undertaking various programme like cattle–cum-buffalo development, fodder development and health coverage to livestock and poultry. The process of planning needs basic data of present status of livestock and poultry.

To popularize the animal husbandry and poultry farming, the department is organizing livestock shows and incentives are given to the breeders of top quality animals.

In order to have a basic idea about the present status of major livestock products and attendant practice, the department has been taking upon “Integrated Sample Survey “since 1977-78. It has been observed that the production of milk, eggs, wool and meat has increased. The per capita availability of milk has gone upto 805 grams per day in the year 2014-15.

This report of Integrated Sample Survey is carried out during the year 2014-15, contains information on the production of milk, eggs, wool and meat, feeding practices, utilization pattern of livestock products and their attendant practices.

This report has been prepared by Shri Raj Karan, Statistical Officer with the assistance of Sh. Vijay Singh, Statistical Assistant under the supervision of Dr. (Smt.) Sushma Yadav, Veterinary Surgeon and expert guidance of Dr. Mukesh Dahiya, Sub Divisional Officer of this Directorate.

Thanks are due to Shri S.K. Das, Adviser (Stat) and other concerned officers of Govt. of India, Ministry of Agriculture, Department of Animal Husbandry, Dairying &

Fisheries, New Delhi for rendering expert guidance both on personal level as well as by arranging conferences in collaboration with I.A.S.R.I. (ICAR), New Delhi to keep the knowledge of statistical staff upto date .

I express my greatest satisfaction to field staff and survey staff who left no stone un-turned for the collection, compilation and analysis of this valuable set of information.

I hope that this report will be of immense use to the department of Animal Husbandry & Dairying within and outside the state and people engaged in animal husbandry, dairying and poultry farming.

Suggestions for improvement are always welcomed.

INDEX

Sr. No.	Subject	Page No.
1.	General Information of Haryana	1-3
	Basic Statistics of Haryana	3-4
	Area and Population	5-10
	Climate	10
	Rainfall	10
2.	Livestock Census	11
	Animal Husbandry	12
	Livestock Census Result	12
	Summary of 18 th & 19 th Livestock Census	13-16
3.	Brief of Integrated Sample Survey	17
	Sample Survey	18-23
	Annual Report of Sample Survey	24-25
	Summarized Survey Results	26-27
	Analysis of Survey Results 2014-15	28-36
4.	District-wise & Season-wise estimates of Milk Production	37
	1(1) Estimated total No. of productive Indigenous Cows, average yield & Milk production.	38
	1(2) Estimated total No. of productive Crossbred Cows, average yield & Milk production.	39
	1(3) Estimated total No. of productive Buffaloes, average yield & Milk production.	40
	1(4) Estimated total No. of productive Goats, average yield & Milk production.	41
	1 (5) Species-wise Milk production in Haryana	42
5.	Year-wise Major Livestock products and per capita availability of milk.	43
	Year-wise Major Livestock products	44
	Year-wise Milk production.	45
	Year-wise per capita availability of milk.	46

6.	District-wise & Season-wise wool production.	47
	2(1) Estimated total No. of Sheep by species.	48
	2(2) Estimated average wool yield per sheep by species.	49
	2(3) Estimated annual wool production by species.	50
	2(4) Category-wise wool production.	51
	Year-wise wool production.	52
7.	District-wise & Season-wise egg production.	53
	3(1) Estimated total No. of productive poultry layers.	54
	3 (2) Estimated average egg yield per day per layer.	55
	3 (3) Estimated annual egg production.	56
	3 (4) Category-wise egg production.	57
	Year-wise egg production.	58
8.	District-wise & Season-wise Meat production.	59
	4 (1) Estimated total No. of animals slaughtered by species.	60
	4 (2) Estimated average meat yield per day per animal.	61
	4 (3) Estimated annual meat production.	62
	4 (4) Category-wise meat production.	63
	4 (5) Species-wise & Season-wise meat production.	64
	Year-wise meat production.	65
9.	Attendant practices.	66
	Grazing facilities.	67
	Percentage distribution of animals according to general feeding practices.	68
	Average feed consumption per animal per day.	68
	Percentage order of lactation	69
	Percentage distribution of animals according to lactational status.	69
	Utilization of milk, egg and dung.	70-71
